

Your Vision, Our Mission:

Smart Farming Solutions for Big Thinkers

Image Pro Broilers

The all-in-one Image Pro is the most flexible and robust controller for poultry raising. Smart and easy-to-use, it's designed to handle all your housing needs for the long haul.

✓ Reliability

Image Pro Broilers has a large 9", use friendly color touch display. Comes with an expandable relay box using sets of 8 relay output modules for up to a maximum of 32 relays.

⚙️ Technical information

Image Pro Broilers includes 6 analog 0 to 10 Volt outputs for variable fan speed, heating, flap control and light dimming.

🔧 Installation

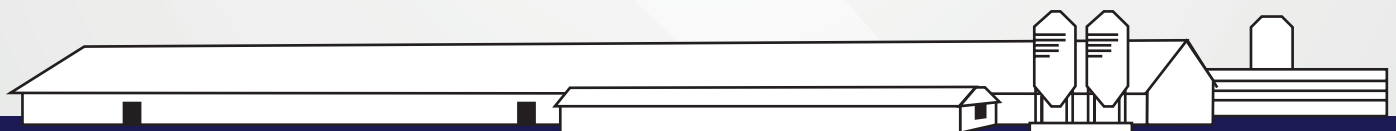

Image Pro Broilers engineered to give you peace of mind, with simple remote control via Web browser, SMS, Smartphone or Tablet.

📡 Typical Applications

The all-inclusive controller provides complete climate control, feed silo weighing, batch weighing, automatic bird weighing and egg counting.

Image Pro Broilers is designed to grow with your business. It saves all data throughout the entire growing period, which can be displayed anytime in graphic format on the color touch-screen display. A front USB port makes updating and transferring information easy to manage.

The controller is designed for use in broilers, houses, flexibly controlling and regulating all functions of operations including variable speed fans, light dimming, static pressure, humidity, CO₂ and more. Temperature reduction and weight curves are included as a standard.

Technical Specifications:

Power 110-220 V

15 Analog inputs

20 Digital inputs

6 Analog outputs 0 to 10 volt

2 Inputs for up to 4 feed silo or 1 batch weigher

4 inputs for bird weigher

8-32 Dry change over contact relays 220V/2A

Expandable with module of 8 relays up to 96 outputs

Temperature measurement of 0.1C

Friendly, Advanced, Affordable
